

HOAG Woods TRAIL MAP

HOAG Woods

This special place was gifted by Dave and Grace Hoag to Upper Charles Conservation Land Trust so that generations to come may continue to enjoy the property they cherished for over 60 years. The Hoags acquired the Doctor Aaron White homestead in 1953 and added a small strip of land along the southerly border in 1975. They raised their five children here and initially preserved it with a conservation easement and life estate. Ultimately they gifted the 15.5 acre parcel of pond and woodlands, known as Grace Pond and Hoag Woods, to Upper Charles Conservation Land Trust to ensure its continued protection and availability for the public to enjoy.
